

Advance Praise for *Lincoln's Veteran Volunteers Win the War*

"A major breakthrough in Civil War history."

— Edwin C. Bearss, author of *Fields of Honor:
Pivotal Battles of the Civil War*

"Ross's extensive and intensive exploration of both primary and secondary sources enabled him to take his family story and transform it into a meaningful statement about both the Civil War and this nation's divided psyche. His willingness to travel thousands of miles in order to access hundreds of primary sources moves this history beyond another run-of-the-mill 'I found these letters in the attic' chapter in Civil War history."

— Joel M. Jones, President Emeritus, Fort Lewis College

"As a general reader, I have been captured and moved by the author's narrative powers and the brilliance of his battlefield scenes. The convincing portraits of individual soldiers and officers carry the reader throughout the book."

— Jurgen Herbst, Professor Emeritus of History,
University of Wisconsin
